Every tool. One app.

Direction: minimal, flat and private, with Ember Orange on a neutral canvas, Inter type, light and dark themes, and icon A (a geometric F with an ember spark).

Adaptive-icon style, 108 dp grid, shown at 192 px and 48 px on light and dark

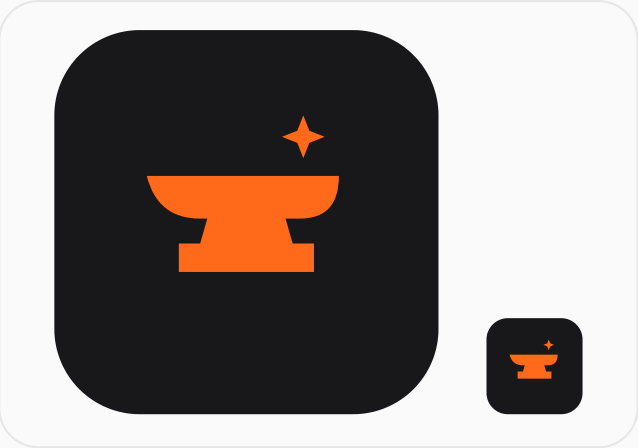

A Forged F

Geometric F whose top bar ends in a small ember spark. Simple, ownable, scales down well.

B Anvil

Charcoal tile with an ember anvil. Literal forge metaphor; reads as heavier and more tool-like.

C Spark

Abstract four-point spark on ember. Bold and friendly, but less tied to the name.

Recommended: **A** - the letterform carries the name, and the spark adds the ember story.
